"To be honest I was a little worried at first because the detailer was very late getting to my house. But I truly believe that was not his fault. He certainly made up for it with his performance. This man is a jewel, hang on to him for dear life. His attention to detail is unprecedented. My car has never looked better! I will definitely use your detailing service in the future. And this brings me some relief as well because previous encounters with other detailing companies have gone bad. Thanks a million!"

"For the amount of money I was not happy with the overall condition of the truck once it was finished. There were a lot of areas inside and out that I feel could have been addressed and made to look a lot better. I was expecting a paste wax that was wipe on and wipe off and figured it would take hours or so because of the size of the vehicle. It appears it was a spray on wipe off wax because there were parts of the exterior that will still dirty or smudged. I would not use this Detailer again and I'm not sure that I would recommend national detail pros in the future to anyone. "
